

phone 10 digits
(6037142643)

password
will be
stored as
hash hence
(255)

werkzerg generate
password hash can
contain up to
180-200 chars so to
be safe i just went
will 255

cleanliness,
accessibility,
quietness,activities,
amenities, and cost
are 0-10 rating int

photos are
stored directly
on server and
filepath is the
path to a photo

filepath is 250
because I am
using uuid to
generate unique
filenames.

note is left
